

Acoustic Digital Analytics Data Sheet

1. Definitions

Capitalized terms used but not defined in this Data Sheet shall have the same meaning as set forth in the respective Acoustic Quote or other ordering document that references the General Terms and Conditions (together the "**Agreement**") or the Data Processing Addendum ("**DPA**").

2. Categories of Data Subjects

2.1 Data Subjects whose Customer Personal Data may generally be Processed by Acoustic Digital Analytics (the "**Product**") may include Customer's customers ("**End-user**"), application users, contractors, and to the extent required by law any other legal entities whose Personal Information is Processed by the Product.

2.2 Given the nature of the Product, Customer acknowledges that Acoustic is not able to verify or maintain the above list of categories of Data Subjects. Therefore, in the case the Customer provides additional information on other categories of Data Subjects than set out below, Customer is responsible for providing complete, accurate, and up-to-date information to Acoustic on the actual categories of Data Subjects that Customer will Process in the Product via Additional Instructions to Acoustic as set out in the DPA: acoustic.com/acoustic-terms.

3. Types of Customer Personal Data

3.1 The lists as set out below are the types of Customer Personal Data, including special categories of Personal Data pursuant to Art. 9 (1) GDPR that generally can be Processed by the Product.

3.2 Given the nature of the Product, Customer acknowledges that Acoustic is not able to verify or maintain the below lists of types of Customer Personal Data. Therefore, in the case the Customer provides additional or other Customer Personal Data than set out below, Customer is responsible for providing complete, accurate, and up-to-date information to Acoustic on the actual types of Customer Personal Data that Customer will Process in the Product via Additional Instructions to Acoustic as set out in the DPA.

3.3 Types of Customer Personal Data that generally can be Processed by the Product:

- End-user information (such as name, phone number, address, e-mail address)
- Technically identifiable Personal Information (such as device IDs, usage-based identifiers, static IP address)

The Product is not intended to Process any special categories of Personal Data.

4. Subject Matter, Nature and Purpose of the Processing

The Product is a solution that allows Customers to track web visitors interacting with their website and provides reports and key performance indicators (also known as KPIs) based on the collection of this data. Data is collected for the Product through "Server Calls". A Server Call is data passed to and processed by the Product as a result of a tagged event, initiated by a tracked visitor for one Client ID. This tagged data is subsequently processed by the Product to generate reports made available through the Product user interface to help understand visitor behavior. Custom views and reports can be generated.

The purpose of the Processing regarding the End-users is: (i) to track and analyze End-user behavior across websites for reporting purposes; (ii) for support and for Customer troubleshooting; (iii) to provide operational maintenance, provision of upgrades and remediation; (iv) to provide Customers with product notifications, and (v) to monitor and improve our service and business, resolve issues and to inform the development of new products and services.
